I started studying Information Systems in a 3-year technical course in the Federal Center of Technological Education. As soon as I finished the technical course, I entered a Bachelor's degree in Information Systems, at the same institution. At that time, I was co-author of a short article published in Brazilian Symposium on Multimedia and the Web (WebMedia), the main event of the theme in Brazil.

I have been working with software development since 2012. In this period I have worked in desktop, web and mobile projects, but in the last years, I have focused on web development and on developing skills like automated deployment and tests.

Today I continue to study with online courses, seeking to improve my skills.

## EXPERIENCE

### Web Developer

#### O2 Filmes

October 2018 — Ongoing

Remote

- Developing backend using Ruby on Rails
- Developing frontend using React
- Working on Etherpad – customizable open source editor
- Writing integration and unit tests using Mocha, WebdriverIO, Enzyme and Rspec
- Testing and deploying software with Semaphore
- Monitoring logs with Sematext
- Working with Google Analytics
- Reviewing code
- Working by Kanban system

### .NET Developer

#### Prion

September 2018 — October 2018

Nova Friburgo, RJ, Brazil

- Developing and maintaining the Westcon Intranet using .NET Framework and SQL Server

### Web Developer

#### Datahex

May 2017 — August 2018

Nova Friburgo, RJ, Brazil

- Developing backend using Node
- Developing frontend using Angular
- Developing mobile apps using Ionic
- Developing desktop application using Electron
- Deploying mobile app to Google Play store
- Integrating mobile app with other devices, such as thermal printer and QR code reader

## PROFESSIONAL SKILLS

Backend  
Frontend  
Git  
Docker  
Database  
CI/CD  
UI/UX

## SOFT SKILLS

Learning Potential Team Work  
Organization Professionalism  
Responsibility Punctuality  
Dedication Simplicity  
Communication Collaboration

## STRENGTHS

### · Development

Design Patterns OOP ReactJS  
React Native VueJs Ruby on Rails  
RESTful APIs GraphQL HTML  
CSS Java C#

### · Testing

Rspec WebdriverIO Enzyme  
Jest Mocha

### · Databases

Mongodb Mysql PostgreSQL

### · Development Tools

- Developing software to import government-issued invoices
- Reviewing code
- Managing NoSql databases
- Working by Scrum framework

## Web Developer

### Crafters Innovation Studio

📅 January 2017 — May 2017      📍 Remote

- Developing web applications using Ruby on Rails
- Testing software using Rspec, adopting 100% of software coverage
- Reviewing code
- Working by Kanban system

## .NET Developer

### R2MS

📅 February 2013 — January 2017      📍 Nova Friburgo, RJ, Brazil

- Developing desktop and web applications using .NET Framework
- Developing user interfaces using WPF
- Developing web applications frontend using Node
- Integrating desktop application with fingerprint devices
- Developing software to import government-issued invoices
- Building and distributing installers for desktop applications
- Managing Mysql databases
- Experiencing different technologies, such as: C#, XML, HTML, CSS, SQL

## EDUCATION

---

Technical Course in Industrial Computing

**Federal Center of Technological Education, RJ, Brazil**

📅 2009 – 2012

Bachelor's degree in Information Systems

**Federal Center of Technological Education, RJ, Brazil**

📅 2014 – 2019

Undergraduated thesis: User Interface Prototype Generation from Agile Requirements Specifications written in Concordia

## LANGUAGES
