I started studying Information Systems in a 3-year technical course in the Federal Center of Technologycal Education. As soon as I finished the technical course, I entered a Bachelor's degree in Information Systems, at the same institution. At that time, I was co-author of a short article published in Brazilian Symposium on Multimedia and the Web (WebMedia), the main event of the theme in Brazil.

I have been working with software development since 2012. In this period I have worked in desktop, web and mobile projects, but int the last years, I have been focusing on web development and on developing skills like automated deployment and tests.

Today, I continue to study with online courses, seeking to improve my skills.

EXPERIENCE

Web Developer

O2 Filmes

📅 Oct 2018 — Ongoing   📍 Remote

– Developing backend using Ruby on Rails

– Developing frontend using React

– Working on Etherpad – customizable open source editor

– Writing integration and unit tests using Mocha, WebdriverIO, Enzyme and Rspec

– Testing and deploying software with Semaphore

– Monitoring logs with Sematext

– Working with Google Analytics

– Reviewing code

– Working by Kanban system

SOFT SKILLS

.NET Developer

Prion

📅 Sep 2018 — Oct 2018   📍 Nova Friburgo, RJ, Brazil

  – Developing and maintaining the
  Westcon Intranet using .NET Framework
  and SQL Server

Learning Potential   Team Work
Organization   Professionalism
Responsibility   Punctuality
Dedication   Simplicity
Communication   Collaboration

Web Developer

Datahex

📅 May 2017 — Aug 2018   📍 Nova Friburgo, RJ, Brazil

  – Developing backend using Node
  – Developing frontend using Angular
  – Developing mobile apps using Ionic
  – Developing desktop application using
  Electron
  – Deploying mobile app to Google Play
  store
  – Integrating mobile app with other
  devices, such as thermal printer and QR
  code reader
  – Developing software to import
  government-issued invoices
  – Reviewing code
  – Managing NoSql databases
  – Working by Scrum framework

Web Developer

Crafters Innovation Studio

📅 Jan 2017 — May 2017   📍 Remote

  – Developing web applications using Ruby
  on Rails

– Testing software using Rspec, adopting 100% of software coverage

– Reviewing code

– Working by Kanban system

.NET Developer

R2MS
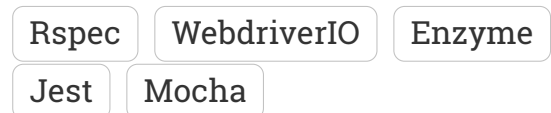

📅 Feb 2013 — Jan 2017   📍 Nova Friburgo, RJ, Brazil

– Developing desktop and web applications using .NET Framework

– Developing user interfaces using WPF

– Developing web applications frontend using Node

– Integrating desktop application with fingerprint devices

– Developing software to import government-issued invoices

– Building and distributing installers for desktop applications

– Managing Mysql databases

– Experiencing different technologies, such as: C#, XML, HTML, CSS, SQL

STRENGTHS

> **Development**

Design Patterns   OOP
ReactJS   React Native   VueJs
Ruby on Rails   RESTful APIs
Graphql   HTML   CSS   Java
C#

> **Testing**

Rspec   WebdriverIO   Enzyme
Jest   Mocha

> **Databases**

Mongodb   Mysql   PostgreSQL

> **Development Tools**

Git   Command line   Docker

EDUCATION

Technical Course in Industrial Computing

Federal Center of Technologycal Education, RJ, Brazil

📅 2009 – 2012

Bachelor's degree in Information Systems

Federal Center of Technologycal Education, RJ, Brazil

📅 2014 – 2019

Undergraduated thesis: User Interface Prototype Generation from Agile Requirements Specifications written in Concordia

WORKS

User Interface Prototype Generation from Agile Requirements Specifications written in Concordia

WebMedia 2019 – Short article
